

I believe that taking KLOVE off the air would be devastatating to our community. People's lives have been saved by finding hope in the message of KLove. Klove offers a place of refuge, safety and hope. It is a station my children can listen to without being exposed to vulgarity or subject matter that they don't need to be exposed to. The staff of Klove is active in supporting community services such as rescue missions which help combat issues of hunger, drug abuse, and homelessness. They do so 365 days a year, not just durring holidays. Please do not take KLOVE off the air.
